

Dealing with Waste in Brownfield Regeneration Conference and Exhibition

10 February 2009

The Park Royal Hotel, Warrington

Envirolink Northwest and the NW Brownfield Regeneration Forum invite you to this one day conference which will give you the opportunity to hear about a range of perspectives on dealing with waste in brownfield regeneration.

This conference aimed at developers, regulators, contractors and consultants will provide an overview of current legislation, financial incentives, and explore the benefits of sustainable design when developing a brownfield site. Examples will be made to case studies from across the industry.

An exhibition of Northwest companies with expertise in dealing with brownfield regeneration and remediation will run alongside the seminar programme, providing the perfect opportunity to meet and network.

- 09:30 **Welcome**
Jane Garrett, Chief Executive - CL:aire
- 09:40 **Definition of Waste – Development Industry Code of Practice**
Ged Duckworth, Ged Duckworth Ltd
Ged will provide an overview of the new voluntary Code of Practice to address the recovery of waste, the role of the Materials Management Plan and the requirements and responsibilities of the Qualified Person.
- 10:05 **Regulation of redevelopment and remediation**
Matt Whitehead, National Technical Advisor- Geoscience – Environment Agency
Matt will give a review of the current waste management legislation and it's application on brownfield sites, including Site Waste Management Plans, Environmental Permitting requirements, exemptions and the role of the EA during the development process.
- 10:30 **Question & Answer**
- 10:45 **Coffee Break and Exhibition**

- 11:30 **Waste on Brownfield Sites – a Consultant’s Perspective**
Chris Barrett, Senior Consultant– Arup
Chris will discuss the impact of the current waste regime on brownfield development, right through from masterplanning and project inception to project completion and validation. Opportunities to improve waste minimisation and increase sustainability will also be covered, including examples from across Arup.
- 11:55 **Brownfield Regeneration and Waste – a Contractor’s View**
Steve Edgar, Director – Vertase F.L.I. Ltd
Steve will present a contractor’s perspective, from pre-construction issues such as permitting and licensing through to arisings management, reuse of materials and on-site treatment techniques and the benefits on early contractor involvement. The presentation will be supported with a range of recent case studies.
- 12:20 **Question & Answer**
- 12:35 **Lunch and Exhibition**
- 13:35 **Minimising Waste through Risk Assessment and Sustainable Design when Developing a Brownfield Site**
Chris Eccles, Director – TerraConsult Ltd
Chris will present a recent case study illustrating the integrated design of remediation and groundworks on a site in Greater Manchester leading to significant waste minimisation and cost savings, including the use of innovative on site analytical techniques.
- 14:00 **Financial Incentives for Brownfield Development**
Ben de Waal, Partner - Davis Langdon Crosher & James LLP
Ben will discuss the opportunities available to developers for the redevelopment of brownfield sites, including the extension to Land Remediation Relief to cover Japanese Knotweed and derelict land.
- 14:25 **Question & Answer**
- 14:40 **Coffee Break and Exhibition**
- 15:10 **Efficient use of Materials in Brownfield and Regeneration Projects**
Paul Mathers, Programme Manager (Landscape & Regeneration), WRAP;
Dave Marsh, Project Manager (Construction), WRAP;
Helen Irons, Technical Manager, Enviros
Firstly Paul will introduce WRAP and discuss the potential for reuse of mineral arisings in the manufacture of topsoil on site for final landscaping purposes. Then Dave will outline WRAP’s approach to the efficient use of materials in regeneration projects, which links demolition arisings into the new build. Finally, Helen will present a case study of how this approach is being applied in practice in a Manchester City Council Pathfinder regeneration scheme.
- 15:35 **Panel Discussion**
- 16:15 **Networking and Exhibition**
- 17:00 **Close**

Dealing with Waste in Brownfield Regeneration Conference and Exhibition

10 February 2009, The Park Royal Hotel, Warrington WA4 4NS
