

Wind Energy Supply Chain Directory 2008

01 Envirolink
Northwest

02 Foreword

03 Company
Capabilities

07 Directory
Listings

Envirolink Northwest works to strengthen the renewable energy sector in England's Northwest. This directory gives details of 162 firms based in the region with the skills and expertise to make your wind energy project a success.

On and offshore wind

As the UK embraces the true potential of wind power, the Northwest of England is set to become the centre of the UK wind energy industry.

The role of this directory is to promote those regional companies that play a key role within the industry's supply chain, while providing wind farm developers with a ready reference point to the expertise available in the Northwest. The region is a central servicing base for wind farms in the North of England as well as Wales, Southern Scotland and the Irish Sea.

On og offshore vind

Efterhånden som Storbritannien forvælgend det sande potentiale af vindkraft, er Nordvestengland blevet centrum for den britiske vindenergiindustri.

Denne vejvisers rolle er at promovere de regionale virksomheder, som spiller en vigtig rolle i industriens leverandørkæde og samtidig give firmaer, der konstruerer vindfarme et hurtigt referencopunkt for den ekspertise, som findes i Nordvestengland.

Regionen er en central servicebase for vindfarme i Nordengland såvel som i Wales, Sydschotland og Det Irle Sea.

Energie aus Onshore-und Offshore-Wind

In Großbritannien wird die Windenergie heute groß geschrieben. Das hat dazu geführt, dass sich der Nordwesten Englands rasch zum britischen Zentrum der Windenergie entwickelt hat.

Aufgabe dieses Verzeichnisses ist nicht nur die Förderung von regionalen Unternehmen, die in der Lieferkette dieser Industrie eine Schlüsselstellung einnehmen. Entwickler von Windparks sollen sich hier umfassend über einschlägige Einrichtungen im Nordwesten Englands informieren können.

Diese Region ist der zentrale Servicestützpunkt für Windparks im Norden Englands, in Wales, Südschottland und der Irischen See.

Fuerza eólica en tierra y mar

El Reino Unido está tomando conciencia del verdadero potencial de la energía eólica y el Noroeste de Inglaterra tiene muchas posibilidades de convertirse en el centro de la industria eólica británica.

El papel de este directorio es el de promocionar las empresas regionales que ya juegan un papel destacado dentro de la cadena de suministro de la industria y proporcionar a los promotores de los parques eólicos la experiencia que ya existe en el Noroeste como punto de referencia útil.

Esta región sirve de base de servicio central para los parques eólicos del Norte de Inglaterra, además de Gales, el Sur de Escocia y el Mar de Irlanda.

Foreword

With Europe's best resources the UK could be a world leader in renewable energy generation. The ambitious UK and European targets for renewable energy should ensure that the wind industry plays a leading role in tackling climate change.

England's Northwest is the ideal place to develop the next generation of renewable energy resources. The world-class universities of Manchester, Liverpool and Lancaster are already playing a role in helping to further develop the growing wind energy sector.

The wind industry is now an attractive commercially viable business opportunity especially given rising energy prices and consumer awareness for clean green energy.

This Envirolink Directory will play an important role in improving communications between wind farm developers and manufacturers within the supply chain.

With the assistance of previous years of the Directory, the wind sector in the Northwest of England now offers a strong experienced labour force, with the knowledge gained from a decade of onshore and offshore developments in the region, notably in Cumbria and the Irish Sea.

As Chief Executive of the BWEA I am particularly delighted to see that my home region is at the forefront of the wind supply chain and I fully support this Envirolink Northwest Directory.

Maria McCaffery

England's Northwest has the knowledge, the skills and the experience to serve you and your business. This directory comprises a list of companies that specialise in key technologies and services essential to the wind industry and industrial users. Their full contact details and a brief description can be found on the following pages.

A & N Plant

Unit 9, Station Road Industrial
Estate, Station Road, St Helens,
Merseyside WA9 3JH

David Rainger,
Business Development Manager
t +44 (0) 1744 850085
e david.rainger@anplant.com
www.anplant.com
Specialist in the hire and
sale of welding positioning
equipment for the fabrication
of wind towers and monopiles.
Can supply complete and/or
partial packages to rotate towers
and offshore piles when welding
sections together. Supplied the
manipulating equipment for
several onshore and offshore
projects throughout Europe.
Section: *Infrastructure.*

A1 Engineering Ltd

Unit 3, Peart Road, Derwent
Howe Industrial Estate,

North Lonsdale Road,
Ulverston, Cumbria LA12 9DP

Richard Moseley,
Sales & Contracts Director
t +44 (0) 1229 583232
e r.moseley@acrastyle.co.uk
www.acrastyle.co.uk
Specialists in HV substation
secondary systems and
interface engineering; the
design, construction, testing
and installation of protection
and control systems/panels
for offshore and onshore
wind farm grid connection
to substations and networks.
Provided these solutions on
several separate wind farm
projects from 2003 to present
including most recently the
Barrow offshore wind farm.
Section: *Electrical.*

Admagnetics Manufacturing

Division of ADM Solutions Ltd
Bolton Avenue, Huncoat,
Accrington, Lancashire BB5 6NJ

maintenance consumables.
Section: *Support services.*

Arc-Rite Welding and Safety Ltd

Unit 4/5, Major Industrial
Estate, Middleton Road,
Heysham, Lancashire LA3 3NT

A.S. Dalton,
Managing Director
t +44 (0) 1524 855213
e info@arc-rite.co.uk
www.arc-rite.co.uk
Suppliers of safety boots,
PPE equipment and workwear.
Section: *Support services.*

Armacell UK Ltd

Mars Street, Oldham,
Greater Manchester OL9 6LY

Tom McCreight,
Operations Manager
t +44 (0) 161 287 7100
e tom.mccreight@armacell.com
www.armacell.com
Supplier of noise and heat
insulation, with bespoke
service and products.
Section: Mechanical.

Askam Construction Ltd

Hampson, Lancaster,
Lancashire LA2 0HY

Sheena Marsden,
Sales Director
t +44 (0) 1524 752800
e smarsden@askam.co.uk
www.askam.co.uk
Specialist in design and
project management for
foundations, site infrastructure
and landscaping.
Section: Infrastructure.

Associated British Ports

Port Office, Ramsden Dock
Road, Barrow-in-Furness,
Cumbria LA14 2TW

Nick Ridehalgh,
Port Manager
t +44 (0) 1229 822911
e barrow@abports.co.uk
www.abports.co.uk
Owners and operators in
the Northwest of the ports
of Barrow, Garston, Fleetwood
and Silloth. Barrow is able
to accommodate the largest
installation vessels with more
than 20 acres of storage
/ development land adjacent
to deep water quays and
offers an ideal logistics base
for Irish Sea operations or
wind turbine manufacture.
Section: Support services.

ATG

Automation House,
Lowton Business Park,
Newton Road, Warrington,
Cheshire WA3 2AP

Jack Bean,
Business Unit Manager
t +44 (0) 1942 685555
e jack.bean@atg.uk.com
www.atg.uk.com
Manufacturer of
automation control systems.
Section: Electrical.

Atlantic Engineering Ltd

Odyssey Centre,
Corporation Road, Birkenhead,
Merseyside CH41 1LB

Frank Waring,
Business Development Manager
t +44 (0) 151 650 0001
e fwaring@atlanticeng.com
www.atlanticeng.com
Supplier of engineering
solutions using welding,
machining and metallurgical
skills, which enable the
refurbishment of worn
or damaged components,
or their replacement by
reverse engineering using
traditional and CNC
machining capabilities.
Section: Support services.

Bachy Soletanche Ltd

Henderson House, Langley
Place, Higgins Lane, Burscough,
Lancashire L40 8JS

Dawn Anderson,
Business Development Adviser
t +44 (0) 1704 895686
e danderson@bacsol.co.uk
www.bacsol.co.uk
Foundation and underground
engineering services for the
offshore industry.
Section: Infrastructure.

Bardon Aggregates Ltd

High Roads, Nether Kellet, ,
Carnforth, Lancashire LA6 1EA

Steve McClure
t +44 (0) 1524 732261
e steve.mcclure@aggregate.com
www.aggregate.com
The UK's principal supplier
of armour stone and scour
protection rock to the specialist
sea defence and wind farm
industries. The West Cumbrian
quarries are the nearest to
the proposed offshore wind
projects. Virtual quarries
at Port of Workington and
Barrow Dock in Cumbria to
service the Solway Firth and
Irish Sea projects. All grades
of stone immediately available.
Section: Infrastructure.

Bay Towage and Salvage Company Ltd

Harbour View, 31 Rampside
Village, Barrow-in-Furness,
Cumbria LA13 0PY

G Charnley,
Managing Director
t +44 (0) 1229 830388
e info@baytowage.co.uk
www.baytowage.co.uk
Hydrographic surveys, anchor
handling, dredger support,
ploughing and levelling of
seabeds. Previous experience
includes core sampling
work and stand-by divers
for offshore wind farms.
Section: Support services.

Bendalls Engineering

Brunthill Road, Kingstown
Industrial Estate, Carlisle,
Cumbria CA3 0EH

Norman Addison,
Managing Director
t +44 (0) 1228 815350
e norman.addison@bendalls.co.uk
www.bendalls.co.uk
Specialist fabricator in stainless,
carbon steels and aluminium.
Section: Mechanical.

Bennett Engineering

Bellingham Works, Mintsfeet
Industrial Estate, Kendal,
Cumbria LA9 6LU

David Stott, Manager
t +44 (0) 1539 722142
e d.stott@bennett-engineering.co.uk
www.bennett-engineering.co.uk
Specialist in machining,
fabrication, sheet metal work
and powder coating.
Section: Mechanical.

Bethell Group Ltd

Dane House, Europa Park,
Stoneclough Road, Kearsley,
Greater Manchester M26 1GE

Phil Marsh,
Business Development Manager
t +44 (0) 1204 439100
e phil.marsh@bethell.co.uk
www.bethell.co.uk
Specialist in electrical
infrastructure installations,
including cabling to 33kV,
jointing, substations and
overhead lines. Delivery
capability includes on
site infrastructure and
competitive connections
to the local network.
Section: Electrical.

Bibby Line Ltd

105 Duke Street, Liverpool,
Merseyside L1 5JQ

Jebb Kitchen, Marine Services
Managing Director
t +44 (0) 151 708 8000
e jebb.kitchen@bibbyline.co.uk
www.bibbyline.co.uk
Provider of marine services.
Section: Support services.

Bonfiglioli UK Ltd

Units 3/7, Grosvenor Grange,
Woolston, Warrington,
Cheshire WA1 4SF

J.J. Adair,
Managing Director,
Mobile Solutions
t +44 (0) 1925 852667
e sales@bonfiglioliuk.co.uk
www.bonfiglioli.co.uk
Suppliers of industrial and
marine gearboxes. Has supplied
yaw and pitch drive gearboxes
and generators to a number
of turbine manufacturers.
Section: Mechanical.

Brevini Power Transmission UK

Brevini UK, Kestrel Court,
910 Centre Park, Lakeside Drive,
Warrington, Cheshire WA1 1QX

Russell Marsh,
General Manager
- Operations and Finance
t +44 (0) 1925 636682
e rmarsh@breviniuk.com
/ sales@brevini.co.uk
www.breviniuk.com
Suppliers of gearboxes, winches,
hydraulic motors, pumps, valves
and pitch and yaw controls.
Section: Mechanical.

Brookhouse Composites Ltd

India Mill, Darwen,
Lancashire BB3 1AD

Terry Unsworth,
Sales Manager
t +44 (0) 1254 706000
e terry.unsworth@brookhouse.net
www.brookhouse.net
Capable of manufacturing
nacelle covers and spinners.
Section: Composites.

Carr Reinforcements Ltd

Carr House, Brighton Road
Industrial Estate, Brighton
Road, Stockport, Greater
Manchester SK4 2BE

Eric Taylor, Director
t +44 (0) 161 443 3377
e erictaylor@btconnect.com
www.carreinforcements.com
Suppliers of carbon fibre
weaves, 3D fabrics and
thermoplastic pre-preg fabrics.
Section: Composites.

Centre for Marine & Coastal Studies Ltd

CMACS, Cammell Lairds
Waterfront Park, Campbelltown
Road, Birkenhead,
Merseyside CH41 9HP

Dr Ian Gloyne-Phillips,
Coastal Technical Director
t +44 (0) 151 650 2275
e info@cmacsltd.co.uk
www.cmacsltd.co.uk
Offers environmental
consultancy services in
coastal and marine sciences,
including EIA, pre, during and
post construction monitoring.
CMACS is an established
consultant for several major
UK and Scandinavian
offshore developers.
Section: Support services.

Community Windpower Ltd

Godscroft Lane, Frodsham,
Cheshire WA6 6XU

Rod Wood, Director
t +44 (0) 1928 734544
e info@communitywindpower.co.uk
www.communitywindpower.co.uk
A community focused wind farm developer specialising in smaller scale wind clusters ranging from 1 to 12 turbines. Offers tangible benefits, affording the community the opportunity to become stakeholders.
Section: *Support services.*

Composite Materials

Unit B, Telford Way, Middlewich,
Cheshire CW10 0GX

John Miller,
Business Manager

MIDEL® 7131 which is
an alternative transformer
insulating and cooling fluid
for transformers which is a fire
resistant and environmentally
friendly fluid that is increasingly
used in wind farms and offshore
applications. MIDEL® filled
transformers are increasingly
being specified for wind farms
because of their high reliability
and fire safety record but
also because the physical size
and weight of the transformer
is a concern whilst the
environmental properties
provide a major differentiator.
Examples have been used in
marine renewable technology
such as the Pelamis Wave
Energy Converter from
Ocean Power Delivery.
Section: Electrical.

Mallinson Fabrications Ltd

Station Road, Dalston,
Carlisle, Cumbria CA5 7LT

Billy Mallinson,
Managing Director
t +44 (0) 1228 710707
e info@mallinsonfabrications.co.uk
